It is important to note that this report contains the results of a survey conducted with a limited number of employers. The answers are therefore influenced by the relevance of the questions and/or the interest of those responding employers, and by the economic situation at the time that the survey was conducted.

Nonetheless, the results provide insight on some of the key hiring and recruitment challenges and opportunities. That information is essential to assist local stakeholders with the planning and tailoring of employment and training services to better meet the requirements of the local labour market.
