# KAPUSKASING

## Local Labour Market Planning Meeting

November 2024

# What We Do

## Labour Market Information

Collect, analyze and disseminate labour market information to highlight key local labour market conditions, opportunities and priorities.

## Partnerships

Develop partnerships with community organizations and businesses, to identify and implement actions to address local labour market issues of common interest.

## Planning

Facilitate service coordination and planning to assist employment, training and other related programs service providers in their decision making and planning.

FAR NORTHEAST TRAINING BOARD (FNETB)  
your local labour market planning network

COMMISSION DE FORMATION DU NORD-EST (CFNE)  
votre réseau local de planification du marché du travail

**GOAL:** Provide data and information to help inform plans aimed at addressing local labour market needs.

## AGENDA

Introduction

Occupations in highest demand

Supply - who we have, or not

Observations/Discussion

Next steps

## TOP 5 – NORTH CLAYBELT REGION (2021-2031)

- Transport truck drivers
- Heavy equipment operators
- Light duty cleaners
- Bus drivers and other transit operators
- Janitors, caretakers, kitchen helps and related support occupations

## TOP 5 – FNETB (2021-2031)

- Transport truck drivers
- Heavy equipment operators
- Light duty cleaners
- Retail and wholesale trade managers
- Bus drivers and other transit operators

*\*North Claybelt Region – refers to the area serviced by North Claybelt Regional Development Corporation. It services the communities along the Highway 11 corridor from Opatatika (located between Hearst and Kapuskasing) to Iroquois Falls, Ontario. The communities serviced include Opatatika, Val Rita Harty, Kapuskasing, Moonbeam, Fauquier Strickland, Smooth Rock Falls, Cochrane and Iroquois Falls.*

## Education

### Highest demand:

- Teachers
- Early childhood educators
- Educational assistants
- HR and finance staff
- IT technicians.

## Forestry

### Highest demand:

- Millwrights and industrial mechanics
- Heavy duty equipment mechanics
- Heavy equipment operators
- Truck drivers

## Mining

### Highest demand:

- Truck drivers
- Heavy equipment operators
- Heavy duty equipment mechanics
- Millwrights

### Challenges raised by employers:

- Competition
- Lack of housing
- Wages (ECEs, PSWs)
- Lack of skilled candidates
- Hiring less qualified candidates
- Turnover – impact (lack of consistency, impact on staff and clients/students)

### Strategies in place or being considered:

- Reducing workforce (technology, restructuring)
- Recruitment incentives for staff (community)
- Connect with educational institutions
- Offer perks (flexible schedules, vacation time, remote work).
- Adapting where possible to improve attraction and retention.

# WITH ACTIVITIES LIMITATIONS - LABOUR FORCE 15+

 At the time of the 2021 Census, in the North Claybelt region the total labour force (population 15+) with activity limitations was 5,495 up from 4,950 in 2016 (+11.0%).

Between 2016 and 2021, the total male population with activity limitations increased by 17.8% while the total female population with activity limitation increased by 5.3% during that same period.

**YOUTH** - the total labour force aged 15 to 24.  
Males +18.2%. Females -8.3%.

**CORE-AGED** - the total labour force aged 25 to 54  
Males +16.9%. Females -3.9%.

**OLDER WORKERS** - the labour force aged 55 and over  
Males +18.4%. Females +15.3%.

 According to Statistics Canada, activity limitations are defined as restrictions on a person's ability to perform certain activities due to a health condition that has lasted or is expected to last at least six months. These conditions can be physical, mental, or cognitive in nature. Activities that may be limited include those at home, work, school, or other activities.

# TOTAL LABOUR FORCE 15+

## Change in the total labour force by Gender, by CFDC 2016 to 2021

Between 2016 and 2021 every CFDC region within the FNETB's catchment area experienced overall decreases of its population 15+ with the exception of Kirkland Lake where the population remained the same.

The only population increases are observed in the 55+ cohort

According to Statistics Canada, the labour force is the civilian population aged 15 and older who were employed or unemployed during the survey reference week.

# INDIGENOUS LABOUR FORCE 15+

## Change in the total Indigenous labour force by Gender, by CFDC 2016 to 2021

Census data is subjected to a confidentiality procedure known as random rounding to prevent the possibility of associating statistical data with any identifiable individual. Under this method, all figures, including totals and detail, are randomly rounded either up or down to a multiple of "5", and in some cases "10". The random rounding technique provides strong protection against direct, residual or negative disclosure, without adding significant error to the Census data.

# EDUCATIONAL ATTAINMENT - LABOUR FORCE 15+

**Change in Educational Attainment Levels, Women  
North Claybelt Region, 2016 to 2021**

A similar trend is observed for women in the North Claybelt region where the percentage of those with apprenticeship or trade certificate or diploma lower in 2021 compared to 2016.

The most significant change is in the female population with no certificate, degree or diploma which decreased by 4.9% between 2016 and 2021.

Between 2016 and 2021 educational attainment levels improved for men in the North Claybelt region in all categories except for apprenticeship where the data shows a decrease during that period.

The percentage of men with no certificate, degree or diploma decreased by 3.2%. Those with high school or equivalent increased by 3.9%.

**Change in Educational Attainment Levels, Men  
North Claybelt Region, 2016 to 2021**

# EDUCATIONAL ATTAINMENT LEVELS – INDIGENOUS LABOUR FORCE 15+

**Educational Attainment Levels, by Gender, Indigenous Population 15+  
North Claybelt Region, 2021**

In 2021 educational attainment levels of the female Indigenous population in the North Claybelt region were higher than the educational attainment of Indigenous men, except in the categories of those with apprenticeship or trade certificate.

**Change in Educational Attainment Levels, Indigenous Population 15+  
North Claybelt Region, 2016 to 2021**

The educational attainment of the Indigenous population 15+ in the North Claybelt region shows improvements between 2016 and 2021, except in the categories of those with apprenticeship or trade certificate, and a slight decrease in those with university level educational attainment.

# EDUCATIONAL ATTAINMENT LEVELS –LABOUR FORCE 15+ WITH ACTIVITY LIMITATIONS

**Educational Attainment Levels, by Gender, Population 15+ with Activity Limitations, North Claybelt Region, 2021**

In 2021 educational attainment levels of the female population with activity limitations in the North Claybelt region were higher than the educational attainment of Indigenous men, except in the category of those with apprenticeship or trade certificate.

**Change in Educational Attainment Levels, Population 15+ with Activity Limitations, North Claybelt Region, 2016 to 2021**

The educational attainment of the population 15+ with activity limitations in the North Claybelt region shows that they were lower in overall in 2021 compared to 2016 in all categories except for the population with no certificate, degree or diploma.

# EDUCATIONAL ATTAINMENT LEVELS

**Educational Attainment Levels, Population 15+  
Total, Indigenous and with Activity Limitations  
North Claybelt Region, 2021**

Customized data for the 2021 Census shows that compared to educational attainment levels of the overall population 15+, the educational attainment of the Indigenous population 15+ in the North Claybelt region are higher in two categories: those with apprenticeship or trades certificate, and those with high school or equivalent.

Data for 2021, shows that compared to the educational attainment levels of the overall population 15+, the population 15+ with activity limitations has a higher educational attainment levels except for those with high school or equivalent and those with university level education.

# EDUCATIONAL ATTAINMENT LEVELS - LABOUR FORCE 15+

Data from the 2021 Census indicates that compared to the province, across the region for the total population 15+:

- there is a high percentage with no certificate degree or diploma.
- a higher percentage with apprenticeship or trades certificate or diploma (except the Wakenagun region)
- a higher percentage with college, CEGEP or other non university education,
- A lower percentage with university as its highest educational attainment level.

# OVER TO YOU

Based on the summary data that we just looked at on the labour market demand and supply in the South Temiskaming region:

1. How does this summary reflect what you know of or what you observe within your organization, network or community? What stands out the most to you?
2. Is this information useful for you/your organization's planning process? How?
3. What additional information would you need to inform your training and employment planning decisions?

**THANK  
YOU!**

**MERCI!**

**FAR NORTHEAST TRAINING BOARD (FNETB)**  
**your local labour market planning network**
